You can use the space bar to accelerate, and on the right side of the screen you can adjust the engine power by clicking on the gear button. But it's not as easy as it looks at first glance. In order to move to the next stage, you need to pass through the obstacle course. Each car has different obstacles. You need to use your accuracy and dexterity to stay out of trouble. If you think you can easily overcome any obstacle, you are mistaken. You have time to assess the situation, to find a way out of the situation. Only your reaction will depend on saving the lives of the driver and passenger. Each passed level brings extra points. At each level, there are three tips that will help you in passing the level. The game Race for Survival consists of 50 levels. There are several modes in the game. These are the arcade and the mini-game. In the arcade mode we have to pass all the maps, destroying enemies and collecting bonuses. In the mini-game we have to pass all the levels and find the key to save the planet. But only if we find all the crystals. To play, click on the icon "Fight!" All levels in the game are numbered. The higher the level, the more dangerous it is. In the course of the game we will receive bonuses in the form of stars, which can be exchanged for weapons. But it's only at the request of the player. There are also other bonuses waiting for us.
