In 2002, AutoCAD Version 2007 was released, and in 2006, Autodesk acquired the Rapidform software company. Rapidform was responsible for the creation of "AutoDesk Dimension" software, which Autodesk developed into AutoCAD 2008. AutoCAD 2007 introduced a number of significant enhancements and new features, such as "scissors tool" commands and Bounding Box and Gradient tool commands. During the AutoCAD 2010 release, the "Raster Graphics Object Model" was developed. In AutoCAD 2011, the "Content Block" feature was introduced, allowing users to place individual components of an object in separate content blocks. In addition, the "Insert" command was replaced by the "Object" command, the "Align to Grid" and "Align to Point" commands were removed, and the "Fit" command was introduced. AutoCAD 2012 was released in 2013, and featured a number of new features, including the introduction of a "Perspective View" (grid) tool, "Pin" tool for placement of all shapes on the drawing canvas, and "3D Modeling" capabilities. Description The free trial version of AutoCAD 2010 is available for Windows, Linux, and Mac OS. Windows and Mac OS users may use the trial version on up to three computers. AutoCAD 2010 allows for free use of the trial version until April 2010; after that, the user must pay a fee. AutoCAD 2012 is available for Windows, Linux, and Mac OS and for iPad, Android, iPhone, and iPod touch. Windows and Mac OS users can use the AutoCAD 2012 Trial version on up to two computers. iPad, Android, iPhone, and iPod touch users can use the trial version on up to four mobile devices, or on a single computer using the "Mac-only" or "Windows-only" license that does not allow mobile use. AutoCAD 2013 was released in 2014. The primary enhancements were the "Group" tool, "Insert" command, "Define" command, "Shape Builder" tool, and "Perspective" tool for placement of all shapes on the drawing canvas. This week my family & I came down to celebrate the beginning of spring and the long awaited arrival of warmer weather. I was really excited and ready for some sun and pool time! Since Easter is pretty far away we decided to celebrate spring and Easter in March! We had a big family brunch to start and then we hit the pool! This was my first time visiting the ultra-private and extremely expensive (even for Florida) COCO PALMS! We started off there and then found a place a few blocks away that was much more in the middle of the neighborhood. While we were at the pool we got a kick out of being the only family without a group of kids running around us! In the end we took the kids to the park for some fresh air and some fun in the sun. My cousin and her husband came down from South Carolina for the weekend and we all went to the Spring Festival at the Caladesi Park. I had been keeping my eyes on the travel site booking flights, once I knew I was heading to Florida I took it from there and booked my flight
