Seaglen Software is a developer of games. Here's what Seaglen's President John Adams had to say about them: "At our recent presentation at the Spike Anime convention in Las Vegas, our company was named the top RPG game publisher out of the top six companies based on points awarded in the RPG category. This is an amazing tribute to our staff, our customers and the entire Seaglen family. We are an RPG company that makes RPG games and we love it! " Q: Did Stannis get the coin or Westeros? So, currently there are two main theories as to what the true motive of Stannis Baratheon really was and why he has become the Hand of the King. Stannis was only doing it so he could get his rightful land, and assuming that he will actually become the king, he will use this coin to try and stop anyone from trying to take his lands Stannis wanted to stop the execution of Melisandre after she gave him the one true king's coin but he became in love with her Both theories have strong arguments. So what is the truth? A: Who was Stannis really working for To answer your question directly: Jon Snow. Here is Jon Snow: Cut off from King's Landing, Pycelle had become very sympathetic to Stannis Baratheon. He had convinced him that Robb Stark was not the true heir to the Iron Throne and that he should have had his claim to Casterly Rock confirmed. - George R.R. Martin, A Game of Thrones: A Song of Ice and Fire, Book 2 Jon himself wrote to Stannis, knowing that Stannis wouldn't even try any other means to achieve his goal if he knew for sure that Jon would stop him with an army, proving that he is the true heir.
