Capturing webcam video streams is a good way to record your computer activities. Using our tool, you can capture video of webpages, talk, take pictures of documents, control your webcam or make your own videos. With our program you can capture pictures from your webcam with different resolutions and frame rates. You can upload and save captured images directly to your photos album, and you can add them to your desktop as virtual slide shows. You can even record video files directly on your hard drive and upload them to Youtube or other video sharing sites. To create movies of your webcam images you can use a special VideoCam Mode of our program. Our program allows you to connect to multiple webcams simultaneously and adjust their settings.

---

VideoCam Mode of our program is a convenient and easy to use tool for creating movies of your webcam images. Combined with the ability to connect to 36 webcams simultaneously, the ability to capture video files directly on your hard drive and upload them to Youtube or other video sharing sites, the ability to adjust the video resolution, size and frame rate for capture, the ability to take a picture of any document or webpage, the ability to record your computer activities, capture slideshows of your webcam images and record video files directly from our webcam, we think our program is a very useful and easy to use tool. Using our program you can capture video of webpages, talk, take pictures of documents, control your webcam or make your own videos. You can upload captured webcams to our website. Using our website, you can upload your captured webcams to video sharing sites such as Youtube, Facebook, Vimeo, Dailymotion, Metacafe, Blip.TV, and to our image album. You can create slideshows of your webcam images and video files and direct them to Youtube or other video sharing sites. You can record your computer activities, capture slideshows of your webcam images and record video files directly from your webcam. Using our program, you can capture webcams with different resolutions and frame rates. If you are looking for an easy way to record and capture videos from your webcams, you can try VideoCam Capture. This easy to use webcam recording software can quickly and easily record any video from webcams and video streaming websites. This program will record your webcam even from sites where there is no option to record. Although it can not make you look like a professional, in just a few b7e8fdf5c8
